

3D Letter Template Example

****Template Name: "Bold Serif A"****

- ****Height:**** 12 inches
- ****Width:**** 10 inches
- ****Depth:**** 1 inch
- ****Material:**** 3/4 inch plywood
- ****Font Style:**** Bold Serif
- ****Base Design:****
 - Outer shape: Layered cut with rounded edges
 - Inner cut: Hollow back for a lightweight structure

****Cutting Instructions:****

1. ****Top Layer:****
 - Profile cut with a 1/4 inch router bit
 - Detail: Slight bevel on edges for depth effect
2. ****Middle Layer:****
 - Profile cut matching outer dimensions (10x12 inches)
 - Detail: Smooth surface for adhesive bonding
3. ****Bottom Layer:****
 - Solid block for support, same dimensions as top layer
 - Detail: Drilled holes for mounting

****Assembly:****

1. Glue and stack layers from bottom to top.
2. Sand edges for a smooth finish.
3. Optional: Paint or stain for desired finish.

****Design Files:****

- .SVG file for routing software
- .PDF layout for manual tracing

(Note: Repeat the similar structure for each letter as needed.)
