

## **\*\*DIY Wooden Letter Template\*\***

### **\*\*Materials Needed:\*\***

- Plywood or MDF board
- Wood router
- Safety goggles
- Jigsaw or bandsaw
- Sandpaper
- Pencil
- Tape measure
- Clamps

### **\*\*Steps:\*\***

#### 1. **\*\*Choose Font Style:\*\***

- Select a font style for the letters you want to create. Print out large letters on paper.

#### 2. **\*\*Trace Letters:\*\***

- Use a pencil to trace the letters onto the plywood/MDF board.

#### 3. **\*\*Cut Out Letters:\*\***

- Use a jigsaw or bandsaw to carefully cut out the letters along the traced lines.

#### 4. **\*\*Smooth Edges:\*\***

- Sand the edges of each letter to remove splinters and rough spots.

#### 5. **\*\*Routing:\*\***

- Secure the letter with clamps, and use the wood router along the edges for a decorative finish.

#### 6. **\*\*Finish:\*\***

- Apply wood stain or paint, if desired. Let it dry completely.

#### 7. **\*\*Display:\*\***

- Use the letters as decorations, signs, or personalized gifts.

### **\*\*Note: Tips to Consider\*\***

- Practice on scrap wood before working on your final letters.
- Ensure your router bits are sharp for a clean cut.
