Dear [Patient's Name],

Subject: Chronic Kidney Disease Diagnosis Notification

We hope this letter finds you well. We are writing to inform you about the results of your recent medical tests and the diagnosis following your evaluation.

After careful review of your results, we have determined that you have been diagnosed with Chronic Kidney Disease (CKD). This condition indicates that your kidneys are not functioning as well as they should be, which may require ongoing management and monitoring.

It is important to understand that CKD is a progressive condition, and early intervention can help slow its progression. We recommend scheduling an appointment to discuss your diagnosis and treatment options in more detail.

Please feel free to reach out to our office at [phone number] or [email address] to arrange a convenient time for your visit. We are here to support you through this process and answer any questions you may have. Thank you for your attention to this important matter.

Sincerely,

[Doctor's Name]
