Subject: DKIM Authentication Implementation
Dear [Recipient Name],
We are pleased to inform you that we have successfully implemented DomainKeys Identified Mail (DKIM) authentication for our email services. This initiative enhances our email security and ensures the authenticity of the messages sent from our domain.
DKIM signing helps to protect our communications from being tampered with and enhances email deliverability. By using DKIM, recipients can verify that the emails they receive from our domain have not been altered in transit and are indeed from us.
For your records, our DKIM public key has been published in our DNS settings and can be found at:
[insert DKIM DNS record URL or description]
We recommend that you update your email systems accordingly to check for DKIM signatures. Should you have any questions or require assistance regarding this implementation, please do not hesitate to reach out.
Thank you for your attention to this important security measure.
Sincerely,
[Your Name]
[Your Title]
[Your Company]
