Dear [Recipient Name],

Subject: DKIM Integration for Newsletter Delivery

We are excited to inform you about an important update regarding our newsletter communication strategy. To enhance our email deliverability and improve the security of our messages, we will be implementing DomainKeys Identified Mail (DKIM) signing for all our newsletters.

**\*\*What is DKIM?\*\***

DKIM is an email authentication method designed to detect forged sender addresses in emails. By signing our emails with DKIM, we verify that the content of our newsletters has not been altered in transit.

**\*\*What Does This Mean for You?\*\***

With DKIM integration, our newsletters will be more securely delivered to your inbox, reducing the chances of our messages being flagged as spam. You can expect to see enhanced email integrity and better overall communication from us.

**\*\*Implementation Timeline:\*\***

We plan to complete the DKIM integration by [specific date]. After this date, you may notice a difference in how our emails are authenticated by your email provider.

Should you have any questions or concerns regarding this update, please do not hesitate to reach out to us at [Your Contact Information].

Thank you for your continued support as we strive to improve your experience with our newsletters.

Best regards,

[Your Name]
