Dear [Sibling's Name],

I hope this letter finds you well. I am writing to share the results of our recent DNA test. This process has been an important journey for both of us, and I value the understanding it brings to our relationship.

The results indicate that [briefly summarize the results, e.g., "we are confirmed siblings," or "we share a biological connection as half-siblings"]. I believe that this knowledge can strengthen our bond and provide us both with a clearer understanding of our family dynamics.

If you would like to discuss the results further, please let me know. I am here to support you and explore what this means for us moving forward. Take care, and I look forward to hearing from you soon.

Warm regards,

[Your Name]
