Dear [Recipient's Name],

I hope this letter finds you well. I am writing to share some exciting news regarding my recent DNA results. After undergoing extensive genetic testing, I have received insights that I believe will be of interest to you.

[Briefly summarize the key findings of your DNA results, such as ancestry, health risks, or genetic traits. You might want to mention if there are any surprising connections or confirmations of family history.]  
I have attached a copy of the report for your review. Please let me know your thoughts, and if you're interested, I would love to discuss this in further detail.

Looking forward to hearing from you soon!

Warm regards,

[Your Name]
