Dear [Patient's Name],

We hope this letter finds you in good health. We wanted to share the results of your recent electrocardiogram (EKG) test performed on [date of test].

The EKG is a simple, non-invasive test that helps us understand the rhythm and electrical activity of your heart. Here are the key findings from your EKG:

- **Heart Rate**: [Insert result] beats per minute
- **Rhythm**: [Normal/Abnormal]
- **Overall Interpretation**: [Brief summary of the findings, e.g., "Your heart rhythm appears normal," or "There are some irregularities that we should discuss further."]

If there are specific points of concern or further steps needed, we encourage you to schedule an appointment with us to discuss your results in detail. Your heart health is important to us, and we are here to answer any questions you may have.

Thank you for trusting us with your care.

Warm regards,

[Your Name]
