Patient EKG Report Explanation Template

Patient Information:
- Name: [Patient Name]
- Age: [Patient Age]
- Gender: [Patient Gender]
- Date of EKG: [Date]
- Referring Physician: [Physician Name]

EKG Findings:
1. **Heart Rate:**
 - [Heart Rate] bpm (normal: 60-100 bpm)
2. **Rhythm:**
 - [Rhythm Type] (e.g., sinus rhythm, atrial fibrillation, etc.)
3. **P Waves:**
 - [Description of P waves, e.g., present, absent, peaked]
4. **PR Interval:**
 - [Duration in ms] (normal: 120-200 ms)
5. **QRS Complex:**
 - [Duration in ms] (normal: <120 ms)
 - [Description of QRS, e.g., normal morphology, tall R waves]
6. **ST Segment:**
 - [Description of ST segment, e.g., elevated, depressed]
7. **T Waves:**
 - [Description of T waves, e.g., inverted, flattened]
8. **QT Interval:**
 - [Duration in ms] (normal: <440 ms for males, <460 ms for females)

Impression:
- [Summary of major findings, e.g., evidence of ischemia, arrhythmia, etc.]

Recommendations:
- [Further tests, referrals, lifestyle changes, medications, etc.]

Physician Signature:
- [Physician Name]
- [Date]

Note: Always ensure to tailor the report according to specific findings and the patient's condition.
