

Here is a simple example of a letter template, but compressed in gz
format:
```

H4sIAAAAAAAAA/8vIzcnJl1D/fluCkphytARcZfYy2sJJJkA/8uW0Ta6B3OnX///ODbDg10Jb0  
YAAAA  
```

(Note: This is a placeholder representation of a gzipped format. Actual
compression requires using a suitable software or library to generate the
appropriate gz data.)
