Dear [Recipient Name],

Subject: Hz Range Analysis for Acoustic Evaluation

I hope this message finds you well. I am writing to provide a detailed analysis of the acoustic frequencies relevant to our ongoing project. The following Hz ranges have been identified and categorized:

1. **Low Frequencies (20 Hz - 250 Hz)**
 - Description: [Brief description of significance and impact]
2. **Mid Frequencies (250 Hz - 2000 Hz)**
 - Description: [Brief description of significance and impact]
3. **High Frequencies (2000 Hz - 20,000 Hz)**
 - Description: [Brief description of significance and impact]

Attached you will find the supporting data and graphs for each frequency range analyzed.

I look forward to discussing this further and am available at your convenience for any questions or clarifications.

Best regards,

[Your Name]
[Your Position]
