

```

```javascript
$(document).ready(function() {
 $("#sendNoteButton").click(function() {
 var recipientName = $("#recipientName").val();
 var noteContent = $("#noteContent").val();

 if (recipientName && noteContent) {
 var thankYouNote = `
 Dear ${recipientName},
 Thank you so much for your kindness and support.
 I truly appreciate everything you have done for me.
 ${noteContent}
 Best regards,
 [Your Name]
 `;
 $("#thankYouNoteDisplay").text(thankYouNote);
 } else {
 alert("Please fill in all fields.");
 }
 });
});
```

```html
<input type="text" id="recipientName" placeholder="Recipient's Name" />
<textarea id="noteContent" placeholder="Write your note
here..."></textarea>
<button id="sendNoteButton">Generate Thank You Note</button>
<div id="thankYouNoteDisplay"></div>
```
