

```

```R
library(ggplot2)
Sample Data
data <- data.frame(
 x = 1:10,
 y = c(5, 12, 20, 15, 25, 30, 20, 35, 30, 40)
)
Create a ggplot
ggplot(data, aes(x = x, y = y)) +
 geom_line(color = "blue", size = 1.5) +
 geom_point(color = "red", size = 3) +
 labs(title = "Colorful Letter Example",
 x = "X Axis Label",
 y = "Y Axis Label") +
 theme_minimal() +
 theme(
 plot.title = element_text(size = 20, face = "bold", color = "purple"),
 axis.title.x = element_text(size = 14, face = "italic", color =
"green"),
 axis.title.y = element_text(size = 14, face = "italic", color =
"orange"),
 axis.text.x = element_text(size = 12, color = "blue"),
 axis.text.y = element_text(size = 12, color = "red")
)
```

```
