

```
```R
library(ggplot2)
Example data
data <- data.frame(
 x = c(1, 2, 3, 4, 5),
 y = c(2, 3, 5, 7, 11)
)
Create a ggplot
p <- ggplot(data, aes(x = x, y = y)) +
 geom_point() +
 geom_line()
Add a unique letter for the figure
p + annotate("text", x = 1, y = 11, label = "(A)", size = 6, fontface =
"bold", hjust = 0)
```
```
