Subject: Nexus Letter for Skin Cancer Claim - [Veteran's Full Name,
Service Number]

Dear [Recipient Name],

I am writing this letter to establish a connection (nexus) between [Veteran's Full Name]'s military service and their diagnosis of skin cancer. I have reviewed the veteran's medical history, service records, and relevant literature regarding the risk factors for skin cancer. [Veteran's Full Name] served in the [Branch of Service] from [Start Date] to [End Date]. During their service, they were exposed to environmental factors such as [specifics of exposure, e.g., prolonged sun exposure, exposure to chemicals, specific deployments, etc.]. The veteran was diagnosed with [specific type of skin cancer] on [diagnosis date] and has undergone [describe treatments, surgeries, or other relevant medical interventions].

According to [refer to medical studies, VA guidelines, or other authoritative sources], there is a known correlation between the types of environmental exposures experienced during military service and the incidence of skin cancer. It is my professional opinion that the veteran's skin cancer is at least as likely as not (50% probability or greater) related to their military service due to these exposures. In conclusion, I strongly recommend that the claim for service connection for skin cancer is granted due to the established nexus between [Veteran's Full Name]'s service and their current medical condition. Thank you for your attention to this matter.

Sincerely,
