

Subject: JQL Query for Project Management

Dear [Recipient's Name],

I hope this message finds you well. I am writing to share a JQL query that can be utilized for effective project management within our team. This query can help us filter and track issues more efficiently.

**\*\*JQL Query:\*\***

\\\

```
project = "YourProjectName" AND status = "In Progress" ORDER BY priority  
DESC
```

\\\

**\*\*Explanation of Query Components:\*\***

- **\*\*project\*\***: Specify the project name to focus on.
  - **\*\*status\*\***: Filter issues based on their current status, e.g., "In Progress".
  - **\*\*ORDER BY\*\***: Sort the results, here by priority in descending order.
- Please feel free to modify the query as needed for your specific requirements. Let me know if you have any questions or need further assistance.

Best regards,
