Dear Admissions Committee,

I am writing to express my interest in applying for the Master of Science in Computer Science program at the University of Utah. I believe that my background in software development and my passion for innovative technology align with the values and academic opportunities provided by your esteemed institution.

I graduated with a Bachelor's degree in Computer Science from XYZ University, where I developed strong programming skills and participated in various projects, including leading a team to create a mobile application that enhances student engagement. My internship at ABC Tech allowed me to apply my knowledge in a professional setting, further solidifying my desire to pursue advanced studies.

I am particularly drawn to the cutting-edge research being conducted in artificial intelligence at the University of Utah. The opportunity to

work with esteemed faculty such as Dr. Jane Smith in this field excites me and aligns perfectly with my career aspirations. Thank you for considering my application. I look forward to the opportunity to be a part of your community and contribute to the academic excellence of the University of Utah.

Sincerely,
John Doe
