Dear [Doctor's Name],

Subject: Request for Evaluation of White Blood Cell Count

I hope this letter finds you well. I am writing to formally request an evaluation of my white blood cell (WBC) count due to [briefly explain reason, e.g., ongoing health concerns, recent symptoms, etc.]. My recent blood tests indicated that my WBC count was [insert specific value], which is [above/below/normal range] compared to the standard reference range.

Given my medical history of [mention any relevant past medical issues or conditions] and the current symptoms I am experiencing, including [list any relevant symptoms], I believe further investigation is warranted. I would appreciate it if you could provide an assessment of the potential causes for my WBC count variation and recommend any necessary follow-up tests or treatment options. If needed, I am available for an appointment at your earliest convenience to discuss this matter further.

Thank you for your attention to this request. I look forward to hearing from you soon.

Sincerely,

[Your Name]  
[Your Medical Record Number, if applicable]
