Dear [Recipient's Name],

Subject: Clarification on WBC Count Results

I hope this message finds you well. I am writing to seek clarification regarding my recent blood test results, specifically concerning my white blood cell (WBC) count.

On [date of test], I received my results which indicated that my WBC count was [specific value]. I have some concerns about what this means for my overall health and would appreciate your insight into the significance of this value in relation to normal ranges and potential implications.

Additionally, I would like to understand if any further testing or follow-up is necessary based on these results.

Thank you for your attention to this matter. I look forward to your response.

Sincerely,

[Your Name]
