Dear [Patient's Name],

Subject: White Blood Cell Count Interpretation

I hope this letter finds you well. We are writing to provide you with the interpretation of your recent white blood cell (WBC) count laboratory results.

****Test Results:****

- ****Date of Test:**** [Date of Test]

- ****WBC Count:**** [Result] cells/uL

- ****Reference Range:**** [Normal Range] cells/uL

****Interpretation:****

Your WBC count of [Result] is [above/below/within] the normal reference range. A WBC count can provide important information about your immune system and overall health.

- ****High WBC Count:**** A high WBC count may indicate [possible causes such as infection, inflammation, stress, allergic reactions, etc.].

- ****Low WBC Count:**** A low WBC count may suggest [possible causes such as bone marrow issues, autoimmune disorders, severe infections, etc.].

****Next Steps:****

We recommend discussing these results in detail during your next appointment. If you are experiencing any symptoms or have concerns, please do not hesitate to contact our office.

Thank you for your attention to this matter. We are here to help you understand your health and address any questions you may have.

Sincerely,

[Your Name]
