Dear [Recipient's Name],

I hope this letter finds you well. I am writing to discuss my recent diagnosis regarding my knee condition and to express my interest in proceeding with a knee replacement surgery.

I have been experiencing [describe symptoms, e.g., chronic pain, limited mobility] for [duration] and have tried various treatment options including [list treatments, e.g., physical therapy, medication] with limited success. After our recent consultation and reviewing my MRI results, I understand that a knee replacement may be the best course of action.

I would like to know more about the procedure, the expected recovery timeline, and what I can do to prepare for the surgery. Additionally, I would appreciate information on the necessary pre-operative assessments and potential risks involved.

Thank you for your attention to my situation. I look forward to your guidance on the next steps.

Sincerely,
[Your Name]
