Dear [Recipient's Name],
I hope this message finds you well! I wanted to share a simple XQL query
with you that I think you might find useful.
Here's an example of the query:
```xql
SELECT [Column1], [Column2]
FROM [TableName]
WHERE [Condition]
ORDER BY [Column1] ASC;
```

Feel free to modify the placeholders ([Column1], [Column2], [TableName],
[Condition]) to suit your needs! If you have any questions or need
further assistance, don't hesitate to reach out.
Best regards,
