

Subject: Inquiry About XnView Software Features

Dear XnView Support Team,

I hope this message finds you well.

I am writing to inquire about the specific features of XnView that cater to advanced image editing and management. I am particularly interested in understanding the following:

1. Support for RAW image formats
2. Batch processing capabilities
3. Plugin compatibility

Additionally, if there are any upcoming updates or enhancements related to these features, I would greatly appreciate the information.

Thank you for your assistance.

Best regards,
