Dear [Recipient Name],

I hope this message finds you well. I am writing to inform you about the installation of XQuartz on my system, which has been an essential step in enhancing my workflow.

XQuartz, as you may know, provides a version of the X.Org X Window System that runs on macOS. This installation allows me to efficiently run applications that require an X server while maintaining compatibility with existing macOS functionalities.

I would appreciate any insights you may have regarding best practices or troubleshooting tips for effectively utilizing XQuartz. Furthermore, if there are any recommended configurations to optimize performance, I would be grateful for your advice.

Thank you for your assistance. I look forward to your response.

Best regards,
