Dear Zhongli,

I hope this letter finds you in good spirits and surrounded by the beauty of Liyue. Your wisdom and strength are a constant source of inspiration to many, and I wanted to take a moment to express my admiration for the role you play in maintaining balance and harmony.

As a skilled Geo Archon, you possess an incredible understanding of the material world and its intricacies. Your dedication to your duties as a consultant for the Wangsheng Funeral Parlor showcases your compassion and respect for the cycle of life and death, which is a rare quality indeed.

I often find myself drawn to your calm demeanor and insightful conversations. Your ability to impart knowledge, whether it is about history or the importance of traditions, enlightens those around you and fosters a deeper appreciation for the world we inhabit.

In my quest for understanding the delicate relationships between the nations of Teyvat, I would cherish the opportunity to learn from you. If you're available, perhaps we could share a tea session where I can ask you about your experiences and perspectives on recent events?

Thank you for being a beacon of guidance and a steadfast protector of Liyue. I look forward to the possibility of our paths crossing in the future.

Warm regards,
