Dear Zhongli,

I hope this letter finds you well amidst the bustling life of Liyue. I have been reflecting on our last encounter at the Wangshu Inn. Your stories about the Geo Archon and the history of Liyue left a profound impression on me.

As a scholar of ancient cultures, I am truly fascinated by your depth of knowledge and the wisdom you impart. I would love the opportunity to learn more from you, perhaps over a cup of Tea at the Harbor. Your perspective on the balance of contracts and the significance of history is something I deeply admire.

Please let me know if you'd be willing to meet. I am eager to hear more about your adventures and insights.

Wishing you peace and prosperity.

Warm regards,
