Dear Zhongli,

I hope this letter finds you in good spirits. As a devoted admirer of your character and the art that brings you to life, I wanted to express my appreciation for your elegance and wisdom. Your presence in Liyue is nothing short of captivating, and your ability to balance strength with grace is something I deeply admire.

I am also an artist, and I recently created an illustration inspired by your serene demeanor and profound connection to the history of Teyvat. The piece reflects your stoicism and the rich cultural heritage you represent. I've incorporated elements of Geo to highlight your elemental mastery and the beauty of Liyue's landscapes.

I would love to share this illustration with you and would be honored to hear your thoughts. Thank you for being an inspiration and embodying the essence of wisdom and strength.

Warm regards,
