Dear Zhongli,

In the vast tapestry of Liyue, where the mountains tell time's tale and the rivers flow with the wisdom of ages, I find myself drawn to your presence like a moth to the flickering light of a lantern. Your steadfast demeanor and boundless knowledge echo the eternal stones you cherish, each carrying its own story.

As I navigate the ebb and flow of life, I often reflect upon your words--each a gentle reminder of the balance we must seek amidst chaos. Your calm spirit is a beacon of tranquility, inspiring me to delve deeper into the ancient arts and the beauty found in both the ephemeral and the everlasting.

In delicate ink, I express my gratitude for the wisdom you share and the strength you impart to those around you. May the geo archon continue to guide us on our journeys, as we traverse the ever-changing landscape of our destinies.

With deep respect and admiration,
